TYRE CAGE
Technical Information

Designed for truck and bus tyre workshops, the 6 bar HD Tyre Inflation Safety Cage Kit provides a safer, more controlled way to inflate heavy-duty tyres up to 1.19m. The automatic tyre inflator features an LCD screen with backlight, an overpressure protection system and four selectable pressure units: psi, bar, kPa and kg/cm². Once the tyre reaches the required pressure, an audible alert lets you know inflation is complete.

SPECIFICATION

- Dimensions - LxWxH (CM): 135 x 70 x 146
- Overall max tyre diameter (CM): 120
- Tyre Width - max (CM): 52
- Weight (KG): 141

FEATURES:

- Automatic tyre inflation system
- Integrated safety inflation cage
- Multi-unit pressure display
- Compliant with CE and DGUV - BGR 157 requirements
